NOHARA YOUSIF ODEESH

Architect | Architectural Designer | AI in Architecture Researcher

Duhok, Kurdistan Region, Iraq | +964 751 532 4421 | Nuhara86@gmail.com | linkedin.com/in/nohara-odeesh

PROFESSIONAL SUMMARY

Architecture graduate of Catholic University in Erbil (2026) with strong design thinking, spatial reasoning, and concept development skills, backed by advanced architectural visualization and rendering ability. Combines a solid grounding in traditional design and documentation with hands-on experience applying AI tools to architectural workflows, demonstrated through published research and a conference presentation in the United States. A fast learner with strong presentation and communication skills, comfortable working collaboratively across design teams and presenting design intent clearly to clients and juries.

EDUCATION

Bachelor of Architecture — Catholic University in Erbil — Graduated June 2026

INTERNSHIP EXPERIENCE

Architectural Intern, Lazgin Construction Company — *Aram City & Opera Land Developments · 2 Months*

- Prepared and revised coordination drawings for active construction sites, translating design documentation into buildable, on-site detail.
- Worked directly with site engineers and contractors to identify and resolve discrepancies between drawings and site conditions.
- Supported day-to-day project coordination, tracking construction progress against architectural documentation.
- Gained direct exposure to construction sequencing, site logistics, and professional communication within a live construction environment.

PROJECT EXPERIENCE

Traditional Fashion House, Duhok — *Graduation Project — Heritage & Cultural Design*

Fashion museum, training workshops, and runway/event spaces on a riverside site. Terraced massing, urban integration, cultural preservation, Assyrian heritage reinterpretation.

Ankawa City Urban Development — *Urban Planning*

Zoning strategy, land-use analysis, infrastructure capacity, movement systems, urban design recommendations.

Residential Design Projects — *Academic*

Space planning, material selection, lighting design, technical drawings, 3D rendering.

Interior Design Projects — *Academic*

Space planning, material palettes, lighting design, interior fit-out.

Hospital Design — *Academic*

Departmental zoning, circulation planning, clinical workflow efficiency, architectural drawings.

Landscape Design Projects — *Academic*

Public outdoor space design, green infrastructure, accessible circulation.

Educational Buildings — *Academic*

School facility design, safe circulation, child-scaled zoning, educational programming.

RESEARCH, PUBLICATIONS & CONFERENCES

Researcher & Speaker, Walsh University — *Ohio, USA*

- Presented original research on Artificial Intelligence in Architecture at an international AI conference, addressing AI's role in design generation, planning, and architectural innovation.

- Received official Certificate of Participation as both speaker and researcher.

Published Research — *"Artificial Intelligence in Architecture" — Walsh University, USA*

- Authored an academic paper examining the integration of AI tools into architectural design, visualization, and decision-making processes.

CERTIFICATIONS & TRAINING

- TOEIC (Test of English for International Communication) — Score 665: Listening 385, Reading 280; Overall CEFR B1, Speaking B2, Writing C1
- AI Rendering for Architecture — Walsh University
- AI Concept Generation for Architecture — Walsh University
- Speaker Certificate, International AI Conference — Walsh University, 2026
- CAPAI Innovation Challenge Bootcamp
- Career Preparation Academy — IREX
- Knauf Systems Training
- Fundamentals of Leadership
- Fundamentals of Marketing
- Fashion & Architecture Workshop — Italian Architects

TECHNICAL SKILLS

Architecture: AutoCAD, Revit, SketchUp, 3ds Max

Rendering: Enscape, V-Ray, Lumion

Adobe & Graphics: Photoshop, Illustrator

AI Tools: ChatGPT, Claude, Gemini, Midjourney, Stable Diffusion, ComfyUI, AI rendering workflows, AI concept generation, prompt engineering for architecture

Office: Microsoft Office Suite

CORE COMPETENCIES

Architectural Design, Concept Development, Space Planning, Construction Documentation, Urban Planning, Interior Design, 3D Visualization, Rendering, Presentation Design, Architectural Research, Problem Solving, Critical Thinking, Attention to Detail, Team Collaboration, Communication

LANGUAGES

- Syriac — Native
- Arabic — Fluent
- English — Professional Working Proficiency
- Turkish — Good
- Kurdish — Basic
